---

Sir,

With reference to the Proceedings of the Government of H.H. the Maharaja of Mysore in the Muzrai Department, No: 794-05, dated the 27th August 1904, we have the honour to submit herewith, Statement A prepared by Mr Narasimhiengar, Sub-Overseer, Water supply & Stores Division, Bangalore, showing the detailed measurements of the work done to the 'Mahadwara' (main entrance) of Sri Venu Gopala Krishna Swamy Temple at Malleswaram, Bangalore. It will be seen from it that the total cost incurred on the 'Mahadwaram' is Rs 1470-0-4. Out of this amount Rs 900/ were paid by the Muzrai Deptt. as sanctioned in the above cited

Proceedings

Proceedings, the balance viz Rs 570-0-4 being met from private funds.

2. We also submit herewith another Statement-B, showing the expenditure of Rs 1180 during the current year, in building Quarters on the Temple premises for the Archaka & Paricharaka. This amount also has been met from private funds. Accordingly, the total contribution from private sources is Rs 1750-0-4 in the current year, as against Rs 900/ granted by Government from the past year's Muzrai Budget.

3 It is to-date, the Amount Spent in Constructing three temples, yâga sâla, pâka sâla car go-down, mahâ dwâram, quarters and a well, aggregates Rs 11,697-0-4, excluding the cost of Consecrating the various deities on three occasions, which amounted to more than Rs 2000/. Out of the said aggregate expenditure of Rs 11,697-0 for construction alone, Rs 9797-0-4 were met from private funds, only Rs 1900/ being contributed by Govt. Thus the private contributions exceed the Govt. grant-in-aid by Rs 7,897-0-4

4. We now respectfully beg leave to submit herewith, an Estimate amounting to Rs 1875/ for building the Compound wall

wall of the Temple, and to solicit that the requisite sum of Rs 1875/ may be kindly sanctioned from the current year's Muzrai Budget In view to make the compound wall strong and durable, it is intended to build it with stone in clay, instead of bricks as proposed in Statement F enclosed with our letter dated the 29th February 1904 It also provides for the high basement required for the wall along the drain of the East Park Road, where the cleft cutting is slipping off during each shower of rain. This was shown to His Excellency the Dewan at the time of his last Inspection

5 After the construction of the compound wall now estimated for, as per enclosure C, the necessary works which will remain to be executed in the succeeding years, are the Gopuram (Tower) over the Mahâdwâram, & Prâkâram Mandapam on the remaining three sides of the main temple.
